

Mi Escuelita Preschools

Your child visited the GSES Angel Tree today and chose the Green Mitten ornament representing Mi Escuelita Preschools.

Mi Escuelita provides over 600 preschool-aged children with the opportunity to learn English so they can enter kindergarten without being enrolled in ESL classes. The children develop their English-speaking skills during class by playing games, participating in word activities, and working on computers. The parents also undergo an educational process as their children learn to speak English.

Mi Escuelita has requested items to enhance the classroom learning experience including:

- alphabet toys & games
- manipulative toys & games
- preschool books
- Amazon gift cards.
